

BLESSED IS HE WHOS HELP IS THE GOD OF JACOB

Newsletter Date: July 2014-Dec. 2014
YOUTH RENEWAL CENTRE PAKISTAN

Thanks for your love and concerns

God the creator of this universe has plan for every person of the world. Most interesting thing is that when we know that there is someone who always loves and cares us. That's makes us special and gives us real joy and happiness. We can get that joy when we come to God and wants to know His plan for us. Being His channel to share His love and care to little ones many times I saw little smiles, soft voices of thank you and sparkling eyes are saying that they are very thankful.

In the same way I want to say thanks to all praying for Youth Renewal Centre Pakistan and showing their careful concerns to us. This is very meaning full and encouraging. I often late to reply to prayer partners but I always thanks to God for His caring people. On behalf of all members and children of EPS I want to say **thanks!**

Tariq Emmanuel (Founder: YRCP)

He can control the situations

In December School Printer was stop working and its repair was not possible that means we need another on urgent basis. I went to market to buy branded (used) one but even their price was out of range. I just prayed in the market lord guide me to which shop I have to go. After two hours in the market God lead me to a shop. He offers us a price with big difference then others, for a next model of printer that we have earlier. The deal was done. And I praised God for His power to control the situation.

- Youth is moving on the determination for success!
- One big challenge for 2015

News from EPS

• Emmanuel Primary School is going on his journey to educate the little ones facing financial problems for their education. By grace of God it's our fourth year to be continued to serve the community through education and motivation for better future.

• Fourth session of EPS has started in September with addition of class three as most senior class of the school.

• Students were happy for the promotion in new classes. Few of them left behind but they have hope to do hard work for coming session.

• We thank God who provides books and all material for students to start their studies with warm joy. As new class added in school another teacher was needed. Miss Samia has joined the school. she is healthy addition in teachers.

• In November school has to face financial challenges as many parents could not pay school fee throughout the year even it's a little amount of rupees 200. Because most of the parents are working on daily wages, other has large number of family member and low income. In the answer of prayers somehow 60% of parents submitted some of their remaining and school can move on its track. But this is still alarming situation for school operational needs.

• The other side of the picture is there are 108 students getting education in this school. And 58 families got hope and confidence for their children's better future. This journey is full of testimonies. i.e., How God provides all the things that we need? How the bad situation turned into the good for students? I am very thankful for all the people praying for us. And thanks to Fellowship of brethren Churches of Pakistan and Youth Renewal Centre Pakistan supported the school in these years through finance, skilled people and resource we need for the school.

In 2015 school needs 58000/- per month for operational expenses. So far we are successful to raise 30000/- per month but still there is 28000/- deficit in this need. And we are looking forward to Him for guidance to raise the remaining.

Coming up events:

- End of term exam at EPS
- Fun day at EPS
- Follow up refreshing course for Emmanuel Computer centre
- Youth seminar in March
- New Admission for next session

Youth get together:

**Helping the Youth
for the
determination in
their life with
understanding of
God's Love i.e.**

**Loser
to
Champion**

At Saint Peter's Church there was Youth Get together in December. Youth spend two hours to discuss "What is the Key of Successful life". There were 25 youth member of church. God used me to share about the strength He gave to every youth member and how we can use these abilities to grow socially and spiritually in our life. It was encouraging for them to focus on their education or work. They were motivated to use their full potential to achieve their goals of life.

YRCP Sunday at Saint Peter's Church:

Our team was invited to the church to share our ministry and word of God. It was very blessed time. As Church was celebrating youth month there, He gave us topic "Fashion and Christian Youth" God used our team for His glory. Many girls, boys and parents comment positively after the service.

Miss Rujla David sharing YRCP vision

One Big Challenge for 2015

We are desperately in need of our own school building instead of rented one. Here are the reasons for this big challenges:

- It carries about Rs.102000/- annually that is one of the biggest expense.
- The land lord currently rented building, on and off just threats us that he is going to sale the building or force to raise in the rent.
- From September 2015 we will have one more class addition in the school and we need room for that, this building does not have more space.
- There are many other children looking for admission in school but we are refusing them as we are already saturated in numbers according to building capacity.
- We have plans for youth to equip them with technology and skill but waiting for the proper place. i.e. we arrange computer training program in summer vocation for youth in school building as at that time children have summer break and EPS building is available.

Youth Renewal Centre is working since August 2010, with a vision “ to fight against Poverty, Ignorance and Discrimination through Education and Skill” we believe that as Christian Nation has many Challenges here in Pakistan. Education and skill can help them to get a respectable position in society and they can be more effective to be light of the world and of course for Pakistan. We are working in followings ways for our goal.

- Emmanuel Primary School (to work on grass root level)
- Emmanuel Academy (academic help in 9th, 10th and intermediate.)
- Emmanuel Computer Centre (to give skill to youth)
- Seminars (for awareness and Motivation)
- Worship program (to win the lost)

Prayer Requests

- Thanksgiving for YRCP members and School teachers.
- Pray for the students of EPS and their families they can grow in faith and in love of Christ.
- Pray for the operational needs as there is deficit of 28000/- to meet the total amount of 58000/- per month.
- Pray for the money for land we want to buy in this year for our school building
- Pray for our safety as we travel on bike for about 15Km away from our home.

Regards,

Youth Renewal Centre Pakistan
